EDUCATION

Seoul National University, Seoul, Republic of Korea

M.P.H. Candidate in Healthcare Management and Policy (Health Economics).

Advisor: Tae-Jin Lee.

Thesis: “The Impact of Financial Burden from Medical Expenditure on Health Behaviors and Preventive Healthcare Utilization: Evidence from the MEPS.”

The Catholic University of Korea, Seoul, Republic of Korea

B.S. in Nursing, February 2024.

Undergraduate Thesis: “The Effects of Core Nursing Skill Practice Education on Confidence in Core Nursing Skill Performance, Drug Calculation Confidence, and Critical Thinking Disposition Among Preclinical Nursing Students.”

RESEARCH INTERESTS

Health Economics, Applied Microeconomics, Causal Inference, Household and Labor Responses to Health Shocks, Technology and Health, Machine Learning with Administrative Data

WORKING PAPERS

- **Seojin Kim** (Sole Author). “Financial Burden and Health Investment Decisions: Panel Evidence from U.S. Households.”
Recipient of the 2026 APHA Medical Care Section Student Paper Award; invited to submit for publication in **Medical Care**.
- **Seojin Kim** (First Author), Tae-Jin Lee. “Income-Related Disparities in Recovery and Recurrence After Catastrophic Health Expenditure: A Longitudinal Analysis of the Korea Health Panel, 2011–2018.”
Revision and Resubmission at **The Korean Journal of Health Economics and Policy**.
- **Seojin Kim** (First Author), Jimin Oh, Yeonji Jung. “Private Health Insurance Transitions Around First Observed Spousal Hospitalization in Korea: Evidence from the Korean Longitudinal Study of Aging.”
Submitted to **Health Economics Review**.
- **Seojin Kim** (Sole Author). “Temporal Prediction of Strict Two-Year Persistent Catastrophic Health Expenditure After a First Observed Episode: A National Household Panel Study.”
Manuscript in preparation.
- **Seojin Kim** (First Author), Huiyeon Lee, Sonoe Mashino, Seung Hwa Choo, Yoonkyung Lee. “Impact of Earthquakes on Orthopedic Injury-related Hospital Admissions: A Systematic Review of Events with Magnitude ≥ 6.5 .”
Manuscript in preparation.
- **Seojin Kim** (First Author), Jackelyn Boyden, Soojeong Han, Sujeong Kim. “Fragmentation and Integration Challenges in Korean Pediatric Palliative Care.”
Manuscript in preparation.

SELECTED RESEARCH IN PROGRESS

- **Seojin Kim** (First Author), Jongseong Lee. “ICT-Based Care Services and Fall-Related Outcomes Among Older Adults with Dementia.”
Causal analysis using linked National Health Insurance claims and social-service administrative data.
- **Seojin Kim** (First Author), Jongseong Lee. “Predicting Serious Fall-Related Events Among Older Adults with Dementia Using Large-Scale Administrative Data.”
Machine-learning study using linked health and social-service records.
- **Seojin Kim** (First Author), Jasmine Xu. “The Hidden Cost of Childhood Behavioral Problems: Child BPI and Parental Labor Supply in the United States.”

- **Seojin Kim** (First Author), Susie Park. “The Impact of Work Conditions on Unmet Healthcare Needs: A Panel Data Analysis Using the Korean Health Panel Survey.”

RESEARCH EXPERIENCE

Seoul National University AI Institute, Seoul, Republic of Korea | July–August 2026

Summer Research Intern, Social Policy Modeling Lab, Department of Social Welfare

Supervisor: Jongseong Lee

- Conduct research using linked National Health Insurance claims and social-service administrative data, with underlying files containing approximately one billion observations.
- Construct longitudinal cohorts and person-level analytic datasets using SAS, SQL, Python, and Stata, including large-scale claims aggregation, feature engineering, data linkage, and validation.
- Evaluate whether an ICT-based care service affects subsequent fall-related outcomes among older adults with dementia using observational causal-inference methods.
- Develop machine-learning models to predict serious fall-related events among older adults with dementia, with emphasis on interpretable prediction, feature selection, calibration, and model evaluation.

Seoul National University, Graduate School of Public Health | April–July 2025

Research Assistant, Impact Evaluation of the Pharmaceutical Patent Linkage System in Korea

Funded by the Ministry of Food and Drug Safety

- Collected and organized substance-level patent and pharmaceutical-company financial data and constructed summary statistics and tables for interim reports and policy briefs.
- Assisted with surveys and focus-group interviews with pharmaceutical companies and industry associations and supported research administration and compliance reporting.

PROFESSIONAL EXPERIENCE

The World Bank, Washington, D.C. | September 2025–February 2026

Short-Term Temporary Intern, Office of the Chief Economist for Infrastructure

- Supported empirical research on infrastructure investment, capital stocks, and economic returns across more than 150 countries.
- Constructed and validated cross-country datasets by integrating infrastructure, macroeconomic, geospatial, and financial data from the World Bank, IEA, IRENA, OECD, and other international sources.
- Developed reproducible Python and R workflows for data cleaning, country-level harmonization, transport-network processing, and analytical visualization.
- Contributed analytical inputs to research on energy and transport infrastructure, including work related to the World Bank flagship report *Infrastructure Foundations: From Current Assets to Future Growth* and analytical work on India’s Smart Cities Mission.

Drug Addiction Center, Seoul St. Mary’s Hospital | December 2021

Data Entry Assistant

- Entered patient survey data into Excel using a predefined coding manual to ensure consistency and accuracy.

TECHNICAL SKILLS AND DATA EXPERIENCE

- **Programming and data management**
Python, R, Stata, SAS, SQL; large-scale data processing, longitudinal cohort construction, record linkage, feature engineering, multi-source harmonization, reproducible workflows, and automated data pipelines.
- **Causal inference and econometrics**
Difference-in-differences, event-study designs, propensity score methods, panel-data models, fixed effects, discrete-time survival analysis, complex survey analysis, and longitudinal data analysis.
- **Machine learning and computational methods**
Supervised prediction, feature engineering, regularization, tree-based models, model interpretation, calibration, model evaluation, Monte Carlo simulation, and R/Shiny development.
- **Selected data experience**
Korean National Health Insurance claims and linked social-service administrative records; MEPS; PSID; Korea Health Panel; Korean Longitudinal Study of Aging; and World Bank infrastructure data covering more than 150 countries.

AWARDS AND SCHOLARSHIPS

- **Student Paper Award**, Medical Care Section, American Public Health Association, 2026.
Awarded for “Financial Burden and Health Investment Decisions: Panel Evidence from U.S. Households.” Scheduled oral presentation at the APHA 2026 Annual Meeting and Expo, San Antonio, Texas.
- **Honorable Mention, Risk Management Competition** (Top 7 of 120 Teams), May 2026.
Issued by Samsung Fire & Marine, POSTECH Open Innovation Big Data Center, and Seoul National University Institute of Securities and Finance. Developed a primary-reinsurance framework for systemic misdiagnosis risk in healthcare AI, integrating seven AI-risk dimensions, Monte Carlo simulation, and an R/Shiny pricing tool for aggregate excess-of-loss coverage.
- **Excellence Award (Second Place)**, 2024 Student Paper Competition, Seoul National University BK21 Center for Integrative Response to Health Disasters.
Paper: “Systematic Review of Hospital Utilization Related to Orthopedic Injuries Within 10 Days After Earthquakes of Magnitude 6.5 or Greater,” with Huiyeon Lee.
- **BK21 Graduate Research Fellowship**, Seoul National University, September 2024–August 2025.
Nationally funded graduate research fellowship; participated in the project *Education and Research for Integrated Disaster Response*, led by Ho Kim.

SELECTED PRESENTATIONS

- **Seojin Kim** (Sole Author). “Financial Burden and Health Investment Decisions: Panel Evidence from U.S. Households.” Medical Care Section Student Paper Awards Session, APHA 2026 Annual Meeting and Expo, San Antonio, Texas, November 3, 2026. Scheduled oral presentation.
- **Seojin Kim** (First Author), Sujeong Kim. “Policy Development and Challenges in Pediatric Palliative Care in South Korea: A Policy Triangle Analysis.” 2026 Summer Conference of the Korean Society for Hospice and Palliative Care, Gwangju, Republic of Korea, July 4, 2026. Poster presentation.
- **Seojin Kim** (First Author), Kim, S., et al. “The Impact of Diabetes-related Knowledge and Motivation on Self-care Management among Adult Diabetic Patients: Evidence from Medical Institutions in Siheung City.” 50th Korean Public Health Joint Academic Conference, May 15–16, 2025. Invited poster presentation.
- **Seojin Kim** (First Author), Jimin Oh, Yeonji Jung. “Economic Evaluations of Telehealth Interventions for Children and Adolescents: A Systematic Review.” AUA Postgraduate Academic Forum: Global Health in the Era of Digital Transformation, February 7–8, 2025. Invited poster presentation.
- **Seojin Kim** (First Author). “Addressing Vulnerabilities in Home-Based Care During Disasters: Focusing on Disabled Individuals, Elderly, and Ventilator-Supported Children.” 15th Asia Pacific Conference on Disaster Medicine, November 25–26, 2024. Invited poster presentation.
- **Seojin Kim** (First Author), Huiyeon Lee. “Enhancing Primary Care for Adults with Autism Spectrum Disorder: The Role of Nurse Practitioners.” Seoul National University Research Institute of Nursing Science 15th International Nursing Research Virtual Conference, November 6, 2024. Invited poster presentation.
- **Seojin Kim** (First Author), Huiyeon Lee, Yoonkyung Lee. “Systematic Review of Hospital Utilization

Related to Orthopedic Injuries Within 10 Days After Earthquakes of Magnitude 6.5 or Greater.” Korean Society of Emergency Medicine Annual Conference, October 18, 2024. Invited oral presentation.

- **Seojin Kim** (First Author), Miju Kang, Eunseo Oh, Hyeri Lee, Seoyun Jang, Sujeong Kim. “Policy Review of Pediatric Palliative Care in South Korea and Future Direction Proposal.” 15th Asia Pacific Hospice Palliative Care Conference, October 4–7, 2023. Invited poster presentation.

ADDITIONAL SKILLS AND LICENSURE

Additional software: L^AT_EX, QGIS, Microsoft Word, Excel, and PowerPoint.

Languages: Korean (native), English (professional).

Licensure and certification: Registered Nurse, Republic of Korea; Advanced Data Analytics Semi-Professional (ADSP).

RELEVANT COURSEWORK

Health Economics Seminar; Principles of Health Economics; Seminar in Health Economics Research; Introduction to Health Statistics; Principles of Epidemiology; Development and Evaluation of Health Programs.

ADDITIONAL TRAINING

KOSTAT–UNFPA Summer Seminar on Population, Seoul, July 2024.

Completed the 25-hour course *Demographic Analysis: Methods and Tools in R* taught by Tim Riffe; trained in demographic stocks and flows, age-period-cohort analysis, life tables, fertility, mortality, trends, and inequality.

Data Science: Data Visualization and Analysis, Naver Connect Foundation, July 2024.

Completed a four-week Python-based data analysis program covering hypothesis testing with health-screening data and applied case studies.

VOLUNTEER AND MENTORING EXPERIENCE

Volunteer Caregiver, Seoul National University Golbaengi School | Spring 2024–Present

Organize weekly community-centered activities for children with autism spectrum disorder.

Mentor, Seoul National University Social Responsibility | Spring 2024–Winter 2025

Provided online mentorship to a Korean adolescent on academic, career, and personal development.

Mentor, Seoul National University Office of International Affairs | Fall–Winter 2024

Supported international students’ academic and social adjustment through the SNU PLUS Mentoring Program.

Hospital Volunteer, Seoul St. Mary’s Hospital Hospice Ward | Fall 2022–Winter 2023

Provided bedside assistance, hygiene support, and emotional support to patients receiving end-of-life care and their families.
